Internship program FAQs

Date : 6 June 2016

Is the program paid or unpaid ?

Most of our internships are unpaid and are useful for getting experience only. Some projects could pay but that is not guaranteed.

What are the career oriented details of the program ?

Our projects are related to the market needs so we do not waste internee or anyone's time in useless work.

The internship is good for future work experience.

What are the terms for the internship ?

The terms are very flexible as compared to many other internships. We usually start of our work on a remote working basis. In some cases we may have work at clients locations but that is rare.

Is there support for foreigners ?

We welcome foreigners from all countries to participate and benefit from getting experience. Currently (as of June 2016) we have internees from Pakistan, UAE, India and US. We are ready to invest time on internees from all countries.

Where is the office you want me to work in ?

Our new internees are not required to work in our offices. They work from their home or any location where they are. In some cases where we need internees to visit clients, it is most likely to be in the same city that they reside in. Depends on the project.

Which skills do you develop in the internship program ?

Internship tasks are usually assigned a project which is closest to the ability and preferences of the internee.

Usually project management and time management is included in all projects.

If you are considering becoming an internee and want to gain experience then email your questions to internship-faq-question@atrc.net.pk
