

Intellectual Property Services

Legalization, Compliance, Auditing, Consultancy, and Optimization services.

More than half of the organizations are using intellectual property which is not properly compliant with the licensing legal requirements of the vendors which provide the intellectual property or software.

By using our expertise, resources, processes and expert consulting partners, software vendors your organization can achieve complete legal compliance in the intellectual property front.

MuftaSoft™ operates as a strategic partner which enables vendors and customers to collaboratively the intricacies of the complex licensing agreements. This collaborative approach leads to a more transparent method of licensing and a more sustainable long term relationship.

The stages of this process are :

Initial assessment of licensing.

Education

Alternative licensing possibilities

Testing of alternative options available

Modification of systems to facilitate optimization

Finalization of optimized Compliance

Assisted Self-Assessment

License Compliance Audit
