Banks and regulators prefer our cryptocurrency.

We are making a cryptocurrency ecosystem which is designed to be amenable to regulators, financial institutions and banks.

You can be a part of the project by investing development time, consulting time or other resources. Since this is likely to be huge, we think it shall be a good investment.

Background of the founder :

Started scratch cards in ISPs in the 1990s and then the mobile telecom market used the idea.

Masters in Computer Science from FAST ICS NU. In case degrees are are your thing.

Started telling close people bitcoin is a good investment when it was 4 to 10 dollars.

Started telling close people ethereum is a good investment when it was 25 dollars.

Anyway.

Let me know if you are interested in this.

This is not some doge coin joke/scam/ICO

In fact we are working on getting more people to discuss long term designs.

We encourage you to check our legitimacy and seriousness before thinking of investing anything.

Feedback, positive and negative shall be helpful also.

To discuss more before you agree to anything, contact us for more information.

Do introduce yourself and your background to get more priority in discussions in the first email.

Emails from public email accounts like hotmail and gmail shall get the lowest priority.
