

Linux Course for IT people.

Everything you wanted to ask about Linux but were afraid to ask.

Audience : Those IT people who need to learn Linux and about FOSS in a reasonable amount of time and cannot spend decades figuring out how to get those thousands of things done which need to be mastered.

Teacher : Khawar Nehal

He spent an insane amount of time learning and practicing Linux and Opensource since the time Linux was born in 1992.

He has been into Unix (*nix) since 1991. Including Sun, Xenix, SCO, AIX, AT&T and many more variants.

He has been into computers since 1985 Unix (*nix) since 1991. Including Sun, Xenix, SCO, AIX, AT&T and many more variants.

He first was introduced to computers in 1981 and started programming in 1983 and has been learning and using them full time into them since 1984. 36 years. Almost 4 decades of experience. So you can learn a lot from the old stories and how technology evolved.
