We provide support, training and development for jitsi.

Projects supported include

Jitsi Meet

A server which allows you to control your video conferencing.

- Share your desktop, presentations, and more
- Invite users to a conference via a simple, custom URL
- Edit documents together using Etherpad
- Pick fun meeting URLs for every meeting
- Trade messages and emojis while you video conference, with integrated chat.

Jitsi Videobridge

Allows the deployment of large scale multiparty video applications

This is designed for thousands of video streams.

You can start a video conference here.
