

Remote Assessment system

The objective is to use the time available to finish this course so you do not have to worry about quizzes, midterms and final exams when the University reopens.

Due to the corona virus issue the following percentages are more likely for all students.

Assignments shall be most likely 50% for all because there is no attendance.

Quizzes 20%

Viva : 20%

Final 10%

Instructions for quizzes :

Write the questions and answers on paper. Scan them and send them immediately via email. Do not wait for the deadline. Do it as soon as you receive this email or download the quiz from the web if someone informed you.

Location for accessing the quizzes and exams shall be
http://atrc.net.pk/resources/ku_comp_arch_jan_2020/assessment/

Any suggestions on how to improve the assessment system.

You can suggest times and dates you are available for quizzes.

Online quiz and midterm is via email and web. The quiz/midterm/final becomes available via http and also gets emailed.

All have a certain number of hours to email in the scanned answers.

For the viva, it shall be based on the answers provided. Might cover everyone if required. Audio recorded on whatsapp for audible and clear voice quality.

Planned quiz dates and times.

Contact on 92 331 2036 422 for vivas via Whatsapp. It is recommended to schedule and finish your vivas before the 14th of May 2020.

Those who have taken a quiz do not have to take the retake of that quiz again.

The quiz is short and can require less than 1 hour but two hours are available to submit.

Receiving of questions by students is via web and email.

Submission is by email.

What you require for receiving and sending :

Charge the mobile before the quiz and turn it off so the battery is alive when you need it to receive and send the quiz.

Prepare a battery powered light in case you are doing the quiz in a low light area.

Paper and pen.

Test your email account is working for receiving and sending.

Make sure you have internet balance or scratch cards ready to receive and send email.

Test your mobile browser to see it can download and show PDF files.

Testing and preparation should be done at least a day before the test.

Anything else you think should be in the checklist, please inform.

You do not need a computer or internet connection on fiber or copper for this. Any mobile internet connection with email and a PDF reader shall do.

A high resolution camera can be used to send the completed answer papers.
